

# **Property Tax Consultants Appraisal**

## **Texas Property Tax Laws**

### **Subchapter E. Appraisal of Timber Land**

#### **Chapter 23 Appraisal Methods and Procedures**

##### **23.71 Definitions**

In this subchapter:

(1) "Category of the land" means the value classification of land for timber production, based on soil type, soil capability, general topography, weather, location, and other pertinent factors, as determined by competent governmental sources.

(2) "Net to land" means the average net income that would have been earned by a category of land over the preceding five years by a person using ordinary prudence in the management of the land and the timber produced on the land. The net income for each year is determined by multiplying the land's potential average annual growth, expressed in tons, by the stumpage value, expressed in price per ton, of large pine sawtimber, small pine sawtimber, pine pulpwood, hardwood sawtimber, hardwood pulpwood, and any other significant timber product, taking into consideration the three forest types and the four different soil types, as determined by using information for the East Texas timber-growing region as a whole from the U.S. Forest Service, the Natural Resources Conservation Service of the United States Department of Agriculture, the Texas Forest Service, and colleges and universities within this state, and by subtracting from the product reasonable management costs and other reasonable expenses directly attributable to the production of the timber that a prudent manager of the land and timber, seeking to maximize return, would incur in the management of the land and timber. Stumpage prices shall be determined by using information collected for all types of timber sales, including cutting contract and gatewood sales.

Land qualifies for appraisal as provided by this subchapter if it is currently and actively devoted principally to production of timber or forest products to the degree of intensity generally accepted in the area with intent to produce income and has been devoted principally to

production of timber or forest products or to agricultural use that would qualify the land for appraisal under Subchapter C or D of this chapter for five of the preceding seven years.

### **23.72 Qualification for Productivity Appraisal**

Land qualifies for appraisal as provided by this subchapter if it is currently and actively devoted principally to production of timber or forest products to the degree of intensity generally accepted in the area with intent to produce income and has been devoted principally to production of timber or forest products or to agricultural use that would qualify the land for appraisal under Subchapter C or D of this chapter for five of the preceding seven years.

### **23.73 Appraisal of Qualified Timber Land**

(a) The appraised value of qualified timber land is determined on the basis of the category of the land, using accepted income capitalization methods applied to average net to land. The appraised value so determined may not exceed the market value of the land as determined by other appraisal methods.

(b) The comptroller by rule shall develop and distribute to each appraisal office appraisal manuals setting forth this method of appraising qualified timber land, and each appraisal office shall use the appraisal manuals in appraising qualified timber land. The comptroller by rule shall develop and the appraisal office shall enforce procedures to verify that land meets the conditions contained in Section 23.72 of this code. The rules, before taking effect, must be approved by majority vote of a committee comprised of the following officials or their designees: the governor, the comptroller, the attorney general, the agriculture commissioner, and the Commissioner of the General Land Office.

(c) For the purposes of Section 23.76 of this code, the chief appraiser also shall determine the market value of qualified timber land and shall record both the market value and the appraised value in the appraisal records.

(d) The appraisal of minerals or subsurface rights to minerals is not within the provisions of this subchapter.

## **23.74 Capitalization Rate**

(a) The capitalization rate to be used in determining the appraised value of qualified timber land as provided by this subchapter is the greater of:

(1) the interest rate specified by the Farm Credit Bank of Texas or its successor on December 31 of the preceding year plus 2-1/2 percentage points; or

(2) the capitalization rate used in determining the appraised value of qualified timber land as provided by this subchapter for the preceding tax year.

(b) Notwithstanding Subsection (a):

(1) in the first tax year in which the capitalization rate determined under that subsection equals or exceeds 10 percent, the capitalization rate for that tax year is the rate determined under Subsection (a)(1); and

(2) for each tax year following the tax year described by Subdivision (1), the capitalization rate is the average of the rate determined under Subsection (a)(1) for the current tax year and the capitalization rate used for each of the four tax years preceding the current tax year other than a tax year preceding the tax year described by Subdivision (1).

## **23.75 Application**

(a) A person claiming that his land is eligible for appraisal as provided by this subchapter must file a valid application with the chief appraiser.

(b) To be valid, the application must:

(1) be on a form provided by the appraisal office and prescribed by the comptroller; and

(2) contain the information necessary to determine the validity of the claim.

(c) The comptroller shall include on the form a notice of the penalties prescribed by Section 37.10, Penal Code, for making or filing an application containing a false statement. The comptroller, in prescribing the contents of the application form, shall require that the form permit a claimant who has previously been allowed appraisal under this subchapter to indicate that previously reported information has not changed and to supply only the eligibility information not previously reported.

(d) The form must be filed before May 1. However, for good cause the chief appraiser may extend the filing deadline for not more than 60 days.

(e) If a person fails to file a valid application on time, the land is ineligible for appraisal as provided by this subchapter for that year. Once an application is filed and appraisal under this subchapter is allowed, the land is eligible for appraisal under this subchapter in subsequent years without a new application unless the ownership of the land changes or its eligibility under this subchapter ends. However, the chief appraiser if he has good cause to believe the land's eligibility under this subchapter has ended, may require a person allowed appraisal under this subchapter in a prior year to file a new application to confirm that the land is currently eligible under this subchapter by delivering a written notice that a new application is required, accompanied by the application form, to the person who filed the application that was previously allowed.

(f) The appraisal office shall make a sufficient number of printed application forms readily available at no charge.

(g) Each year the chief appraiser for each appraisal district shall publicize, in a manner reasonably designed to notify all residents of the district, the requirements of this section and the availability of application forms.

(h) A person whose land is allowed appraisal under this subchapter shall notify the appraisal office in writing before May 1 after eligibility of the land under this subchapter ends. If a person fails to notify the appraisal office as required by this subsection a penalty is imposed on the property equal to 10 percent of the difference between the taxes imposed on the property in each

year it is erroneously allowed appraisal under this subchapter and the taxes that would otherwise have been imposed.

(i) The chief appraiser shall make an entry in the appraisal records for the property against which the penalty is imposed indicating liability for the penalty and shall deliver a written notice of imposition of the penalty to the person who owns the property. The notice shall include a brief explanation of the procedures for protesting the imposition of the penalty. The assessor for each taxing unit that imposed taxes on the property on the basis of appraisal under this subchapter shall add the amount of the penalty to the unit's tax bill for taxes on the property against which the penalty is imposed. The penalty shall be collected at the same time and in the same manner as the taxes on the property against which the penalty is imposed. The amount of the penalty constitutes a lien on the property against which the penalty is imposed and accrues penalty and interest in the same manner as a delinquent tax.

(j) If the chief appraiser discovers that appraisal under this subchapter has been erroneously allowed in any one of the five preceding years because of failure of the person whose land was allowed appraisal under this subchapter to give notice that its eligibility had ended, the chief appraiser shall add the difference between the appraised value of the land under this subchapter and the market value of the land to the appraisal roll as provided by Section 25.21 of this code for other property that escapes taxation.

### **23.751 Late Application for Appraisal as Timer Land**

(a) The chief appraiser shall accept and approve or deny an application for appraisal under this subchapter after the deadline for filing it has passed if it is filed before approval of the appraisal records by the appraisal review board.

(b) If appraisal under this subchapter is approved when the application is filed late, the owner is liable for a penalty of 10 percent of the difference between the amount of tax imposed on the property and the amount that would be imposed if the property were taxed at market value.

(c) The chief appraiser shall make an entry on the appraisal records indicating the person's liability for the penalty and shall deliver written notice of imposition of the penalty, explaining the reason for its imposition, to the person.

(d) The tax assessor for a taxing unit that taxes land based on an appraisal under this subchapter after a late application shall add the amount of the penalty to the owner's tax bill, and the tax collector for the unit shall collect the penalty at the time and in the manner he collects the tax. The amount of the penalty constitutes a lien against the property against which the penalty is imposed, as if it were a tax, and accrues penalty and interest in the same manner as a delinquent tax.

### **23.76. Change of Use of Land**

(a) If the use of land that has been appraised as provided by this subchapter changes, an additional tax is imposed on the land equal to the difference between the taxes imposed on the land for each of the five years preceding the year in which the change of use occurs that the land was appraised as provided by this subchapter and the tax that would have been imposed had the land been taxed on the basis of market value in each of those years, plus interest at an annual rate of seven percent calculated from the dates on which the differences would have become due.

(b) A tax lien attaches to the land on the date the change of use occurs to secure payment of the additional tax and interest imposed by this section and any penalties incurred. The lien exists in favor of all taxing units for which the additional tax is imposed.

(c) The additional tax imposed by this section does not apply to a year for which the tax has already been imposed.

(d) If the change of use applies to only part of a parcel that has been appraised as provided by this subchapter, the additional tax applies only to that part of the parcel and equals the difference between the taxes imposed on that part of the parcel and the taxes that would have been imposed had that part been taxed on the basis of market value.

(e) A determination that a change in use of the land has occurred is made by the chief appraiser. The chief appraiser shall deliver a notice of the determination to the owner of the land as soon as

possible after making the determination and shall include in the notice an explanation of the owner's right to protest the determination. If the owner does not file a timely protest or if the final determination of the protest is that the additional taxes are due, the assessor for each taxing unit shall prepare and deliver a bill for the additional taxes and interest as soon as practicable after the change of use occurs. The taxes and interest are due and become delinquent and incur penalties and interest as provided by law for ad valorem taxes imposed by the taxing unit if not paid before the next February 1 that is at least 20 days after the date the bill is delivered to the owner of the land.

(f) The sanctions provided by Subsection (a) do not apply if the change of use occurs as a result of:

(1) a sale for right-of-way;

(2) a condemnation; or

(3) a transfer of the land to this state or a political subdivision of this state to be used for a public purpose.

(g) If the use of the land changes to a use that qualifies under Subchapter C, D, or H of this chapter, the sanctions provided by Subsection (a) of this section do not apply.

(h) The use of land does not change for purposes of Subsection (a) solely because the owner of the land claims it as part of the owner's residence homestead for purposes of Section 11.13.

(i) The sanctions provided by Subsection (a) do not apply to land owned by an organization that qualifies as a religious organization under Section 11.20(c) if the organization converts the land to a use for which the land is eligible for an exemption under Section 11.20 within five years.

(j) The sanctions provided by Subsection (a) do not apply to a change in the use of land if:

(1) the land is located in an unincorporated area of a county with a population of less than 100,000;

(2) the land does not exceed five acres;

- (3) the land is owned by a not-for-profit cemetery organization;
- (4) the cemetery organization dedicates the land for a cemetery purpose;
- (5) the cemetery organization has not dedicated more than five acres of land in the county for a cemetery purpose in the five years preceding the date the cemetery organization dedicates the land for a cemetery purpose; and
- (6) the land is adjacent to a cemetery that has been in existence for more than 100 years.
- (k) In Subsection (j), "cemetery," "cemetery organization," and "cemetery purpose" have the meanings assigned those terms by Section 711.001, Health and Safety Code.

### **23.77 Land Ineligible for Appraisal as Timber Land**

Land is not eligible for appraisal as provided by this subchapter if:

- (1) the land is located inside the corporate limits of an incorporated city or town, unless:
  - (A) the city or town is not providing the land with governmental and proprietary services substantially equivalent in standard and scope to those services it provides in other parts of the city or town with similar topography, land utilization, and population density; or
  - (B) the land has been devoted principally to production of timber or forest products continuously for the preceding five years;
- (2) the land is owned by an individual who is a nonresident alien or by a foreign government if that individual or government is required by federal law or by rule adopted pursuant to federal law to register his ownership or acquisition of that property; or
- (3) the land is owned by a corporation, partnership, trust, or other legal entity if the entity is required by federal law or by rule adopted pursuant to federal law to register its ownership or acquisition of that land and a nonresident alien or a foreign government or any combination of nonresident aliens and foreign governments own a majority interest in the entity.

### **23.78 Minimum Taxable Value of Timer Land**

The taxable value of qualified timber land appraised as provided by this subchapter may not be less than the appraised value of that land for the taxing unit in the 1978 tax year, except that the taxable value used for any tax year may not exceed the market value of the land as determined by other generally accepted appraisal methods. If the appraised value of timber land determined as provided by this subchapter is less than a taxing unit's appraised value of that land in 1978, the assessor for the unit shall substitute the 1978 appraised value for that land on the unit's appraisal roll.

### **23.79. Action on Applications**

(a) The chief appraiser shall determine separately each applicant's right to have his land appraised under this subchapter. After considering the application and all relevant information, the chief appraiser shall, as the law and facts warrant:

- (1) approve the application and allow appraisal under this subchapter;
- (2) disapprove the application and request additional information from the applicant in support of the claim; or
- (3) deny the application.

(b) If the chief appraiser requests additional information from an applicant, the applicant must furnish it within 30 days after the date of the request or the application is denied.

However, for good cause shown the chief appraiser may extend the deadline for furnishing the information by written order for a single period not to exceed 15 days.

(c) The chief appraiser shall determine the validity of each application for appraisal under this subchapter filed with him before he submits the appraisal records for review and determination of protests as provided by Chapter 41 of this code.

(d) If the chief appraiser denies an application, he shall deliver a written notice of the denial to the applicant within five days after the date he makes the determination. He shall include with the notice a brief explanation of the procedures for protesting his action.

## **23.81. Definitions**

In this subchapter:

- (1) "Recreational, park, or scenic use" means use for individual or group sporting activities, for park or camping activities, for development of historical, archaeological, or scientific sites, or for the conservation and preservation of scenic areas.
- (2) "Deed restriction" means a valid and enforceable provision that limits the use of land and that is included in a written instrument filed and recorded in the deed records of the county in which the land is located.

## **23.82. Voluntary Restrictions**

- (a) The owner of a fee simple estate in land of at least five acres may limit the use of the land to recreational, park, or scenic use by filing with the county clerk of the county in which the land is located a written instrument executed in the form and manner of a deed.
- (b) The instrument must describe the land, name each owner of the land, and provide that the restricted land may be used only for recreational, park, or scenic uses during the term of the deed restriction. The term of the deed restriction must be for at least 10 years, and the length of the term must be stated in the instrument.
- (c) The county attorney of the county in which the restricted land is located or any person owning or having an interest in the restricted land may enforce a deed restriction that complies with the requirements of this section.

## **23.83 Appraisal of Restricted Land**

- (a) A person is entitled to have land he owns appraised under this subchapter if, on January 1:
  - (1) the land is restricted as provided by this subchapter;
  - (2) the land is used in a way that does not result in accrual of distributable profits, realization of private gain resulting from payment of compensation in excess of a reasonable allowance for

salary or other compensation for services rendered, or realization of any other form of private gain;

(3) the land has been devoted exclusively to recreational, park, or scenic uses for the preceding year; and

(4) he is using and intends to use the land exclusively for those purposes in the current year.

(b) The chief appraiser may not consider any factor other than one relating to the value of the land as restricted. Sales of comparable land not restricted as provided by this subchapter may not be used to determine the value of restricted land.

(c) Improvements other than appurtenances to the land and the mineral estate are appraised separately at market value. Riparian water rights, private roads, dams, reservoirs, water wells, and canals, ditches, terraces, and similar reshaping of or additions to the soil are appurtenances to the land and the effect of each on the value of the land for recreational, park, or scenic uses shall be considered in appraising the land.

(d) If land is appraised under this subchapter for a year, the chief appraiser shall determine at the end of that year whether the land was used exclusively for recreational, park, or scenic uses. If the land was not used exclusively for recreational, park, or scenic uses, the assessor for each taxing unit shall impose an additional tax equal to the difference in the amount of tax imposed and the amount that would have been imposed for that year if the land had not been restricted to recreational, park, or scenic uses. The assessor shall include the amount of additional tax plus interest on the next bill for taxes on the land.

(e) The comptroller shall promulgate rules specifying the methods to apply and the procedures to use in appraising land under this subchapter.

### **23.84. Application**

(a) A person claiming the right to have his land appraised under this subchapter must apply for the right the first year he claims it. Application for appraisal under this chapter is made by filing a sworn application form with the chief appraiser for the appraisal district in which the land is located.

(b) A claimant must deliver a completed application form to the chief appraiser before May 1 and must furnish the information required by the form. For good cause shown the chief appraiser may extend the deadline for filing the application by written order for a single period not to exceed 60 days.

(c) If a claimant fails to timely file a completed application form, the land is ineligible for appraisal as provided by this subchapter for that year. Once an application is filed and appraisal under this subchapter is allowed, the land is eligible for appraisal under this subchapter during the term of the deed restriction without a new application unless the ownership of the land changes or its eligibility under this subchapter ends. However, the chief appraiser, if he has good cause to believe the land's eligibility under this subchapter has ended, may require a person allowed appraisal under this subchapter in a prior year to file a new application to confirm that the land is currently eligible under this subchapter by delivering a written notice that a new application is required, accompanied by the application form, to the person who filed the application that was previously allowed.

(d) A person whose land is allowed appraisal under this subchapter shall notify the appraisal office in writing before May 1 after eligibility of the land under this subchapter ends.

(e) If the chief appraiser discovers that appraisal under this subchapter has been erroneously allowed in any one of the five preceding years, the chief appraiser shall add the difference between the appraised value of the land under this subchapter and the market value of the land if it had not been restricted to recreational, park, or scenic uses to the appraisal roll as provided by Section 25.21 of this code for other property that escapes taxation.

(f) The comptroller in prescribing the contents of the application forms shall ensure that each form requires a claimant to furnish the information necessary to determine the validity of the claim and that the form requires the claimant to state that the land for which he claims appraisal under this subchapter will be used exclusively for recreational, park, or scenic uses in the current year.

### **23.85. Action on Application**

(a) The chief appraiser shall determine individually each claimant's right to appraisal under this subchapter. After considering the application and all relevant information, the chief appraiser shall, as the law and facts warrant:

(1) approve the application and allow appraisal under this subchapter;

(2) disapprove the application and request additional information from the claimant in support of the claim; or

(3) deny the application.

(b) If the chief appraiser requests additional information from a claimant, the claimant must furnish the information within 30 days after the date of the request or the application is denied. However, for good cause shown the chief appraiser may extend the deadline for furnishing additional information by written order for a single period not to exceed 15 days.

(c) The chief appraiser shall determine the validity of each application for appraisal under this subchapter filed with him before he submits the appraisal records for review and determination of protests as provided by Chapter 41 of this code.

(d) If the chief appraiser denies an application, he shall deliver a written notice of the denial to the claimant within five days after the date of denial. The notice must include a brief explanation of the procedures for protesting the denial.

### **23.86. Additional Taxation for Preceding Years**

(a) If land that has been appraised under this subchapter is no longer subject to a deed restriction or is diverted to a use other than recreational, park, or scenic uses, an additional tax is imposed on the land equal to the difference between the taxes imposed on the land for each of the five years preceding the year in which the change of use occurs or the deed Restriction expires that the land was appraised as provided by this subchapter and the tax that would have been imposed had the land not been restricted to recreational, park, or scenic uses in each of those years, plus interest at an annual rate of seven percent calculated from the dates on which the differences would have become due.

(b) A tax lien attaches to the land on the date the change of use occurs or the deed restriction expires to secure payment of the additional tax and interest imposed by this section and any penalties incurred. The lien exists in favor of all taxing units for which the additional tax is imposed.

(c) The assessor shall prepare and deliver a statement for the additional taxes as soon as practicable after the change of use occurs or the deed restriction expires. The taxes become delinquent and incur penalties and interest as provided by law for ad valorem taxes imposed by the taxing unit if not paid before the next date on which the unit's taxes become delinquent that is more than 10 days after the date the statement is delivered.

(d) The sanctions provided by Subsection (a) of this section do not apply if the change of use occurs as a result of a sale for right-of-way or a condemnation.

### **23.87. Penalty for Violating Deed Restriction**

a) If land appraised under this subchapter is used for other than recreational, park, or scenic uses before the term of the deed restriction expires, a penalty is imposed on the land equal to the difference between the taxes imposed on the land for the year in which the violation occurs and the amount that would have been imposed for that year had the land not been restricted to recreational, park, or scenic uses.

(b) The chief appraiser shall make an entry in the appraisal records for the land against which the penalty is imposed indicating liability for the penalty and shall deliver a written notice of imposition of the penalty to the person who filed the application for appraisal under this subchapter. The notice shall include a brief explanation of the procedures for protesting the imposition of the penalty.

(c) The assessor for each taxing unit that imposed taxes on the land on the basis of appraisal under this subchapter shall add the amount of the penalty to the unit's tax bill for taxes on the land against which the penalty is imposed. The penalty shall be collected at the same time and in the same manner as the taxes on the land against which the penalty is imposed. The amount of the penalty constitutes a lien on the land against which the penalty is imposed and accrues penalties and interest in the same manner as a delinquent tax.

## **Subchapter G Appraisal of Public Access Airport Property**

### **23.91. DEFINITIONS.**

In this subchapter:

- (1) "Airport property" means real property that is designed to be used or is used for airport purposes, including the landing, parking, shelter, or takeoff of aircraft and the accommodation of individuals engaged in the operation, maintenance, or navigation of aircraft or of aircraft passengers in connection with their use of aircraft or of airport property.
- (2) "Public access airport property" means privately owned airport property that is regularly used by the public for or regularly provides services to the public in connection with airport purposes.
- (3) "Deed restriction" means a valid and enforceable provision that restricts the use of property and that is included in a written instrument filed and recorded in the deed records of the county in which the property is located.

### **23.92. Voluntary Restrictions**

- (a) The owner of a fee simple estate in property of at least five acres may limit the use of that part of the property which is airport property to public access airport property by filing with the county clerk of the county in which the property is located a written instrument executed in the form and manner of a deed.
- (b) The instrument must describe the property and the restricted part of the property, name each owner of the property, and provide that the restricted property may only be used as public access airport property during the term of the deed restriction.

The term of the deed restriction must be for at least 10 years, and the length of the term must be stated in the instrument.

(c) The county attorney of the county in which the restricted property is located or any person owning or having an interest in the restricted property may enforce a deed restriction that complies with the requirements of this section.

### **23.93. Appraisal on Restricted Land**

a) A person is entitled to have airport property he owns appraised under this subchapter if, on January 1:

(1) the property is restricted as provided by this subchapter;

(2) the property has been devoted exclusively to use as public access airport property for the preceding year; and

(3) he is using and intends to use the property exclusively as public access airport property in the current year.

(b) The chief appraiser may not consider any factor other than one relating to the value of the airport property as restricted. Sales of comparable airport property not restricted as provided by this subchapter may not be used to determine the value of restricted property.

(c) Improvements to the property that qualify as public access airport property are appraised as provided by this subchapter, but other improvements and the mineral estate are appraised separately at market value.

(d) If airport property is appraised under this subchapter for a year, the chief appraiser shall determine at the end of that year whether the property was used exclusively as public access airport property. If the airport property was not used exclusively as public access airport property, the assessor for each taxing unit shall impose an additional tax equal to the difference in the amount of tax imposed and the amount that would have been imposed for that year if the property had not been restricted to use as public access airport property. The assessor shall include the amount of additional tax plus interest on the next bill for taxes on the land.

(e) The comptroller shall promulgate rules specifying the methods to apply and the procedures to use in appraising property under this subchapter.

## **23.94. Application**

a) A person claiming the right to have his airport property appraised under this subchapter must apply for the right the first year he claims it. Application for appraisal under this subchapter is made by filing a sworn application form with the chief appraiser for each appraisal district in which the land is located.

(b) A claimant must deliver a completed application form to the chief appraiser before May 1 and must furnish the information required by the form. For good cause shown the chief appraiser may extend the deadline for filing the application by written order for a single period not to exceed 60 days.

(c) If a claimant fails to timely file a completed application form, the property is ineligible for appraisal as provided by this subchapter for that year. Once an application is filed and appraisal under this subchapter is allowed, the property is eligible for appraisal under this subchapter during the term of the deed restriction without a new application unless the ownership of the property changes or its eligibility under this subchapter ends. However, the chief appraiser, if he has good cause to believe the property's eligibility under this subchapter has ended, may require a person allowed appraisal under this subchapter in a prior year to file a new application to confirm that the property is currently eligible under this subchapter by delivering a written notice that a new application is required, accompanied by the application form, to the person who filed the application that was previously allowed.

(d) A person whose property is allowed appraisal under this subchapter shall notify the appraisal office in writing before May 1 after eligibility of the property under this subchapter ends.

(e) If the chief appraiser discovers that appraisal under this subchapter has been erroneously allowed in any one of the five preceding years, the chief appraiser shall add the difference between the appraised value of the property under this subchapter and the value of the property if it had not been restricted to use as public access airport property to the appraisal roll as provided by Section 25.21 of this code for other property that escapes taxation.

(f) The comptroller in prescribing the contents of the application forms shall ensure that each form requires a claimant to furnish the information necessary to determine the validity of the

claim and that the form requires the claimant to state that the airport property for which he claims appraisal under this subchapter will be used exclusively as public access airport property in the current year.

### **23.95. Action on Application**

(a) The chief appraiser shall determine individually each claimant's right to appraisal under this subchapter. After considering the application and all relevant information, the chief appraiser shall, as the law and facts warrant:

- (1) approve the application and allow appraisal under this subchapter;
- (2) disapprove the application and request additional information from the claimant in support of the claim; or
- (3) deny the application.

(b) If the chief appraiser requests additional information from a claimant, the claimant must furnish the information within 30 days after the date of the request or before April 15, whichever is earlier, or the application is denied. However, for good cause shown the chief appraiser may extend the deadline for furnishing additional information by written order for a single period not to exceed 15 days.

(c) The chief appraiser shall determine the validity of each application for appraisal under this subchapter filed with him before he submits the appraisal records for review and determination of protests as provided by Chapter 41 of this code.

(d) If the chief appraiser denies an application, he shall deliver a written notice of the denial to the claimant within five days after the date of denial. The notice must include a brief explanation of the procedures for protesting the denial.

### **23.96. Taxation for Preceding Years.**

(a) If airport property that has been appraised under this subchapter is no longer subject to a deed restriction, an additional tax is imposed on the property equal to the difference between the taxes imposed on the property for each of the five years preceding the year in which the deed

restriction expires that the property was appraised as provided by this subchapter and the tax that would have been imposed had the property not been restricted to use as public access airport property in each of those years, plus interest at an annual rate of seven percent calculated from the dates on which the differences would have become due.

(b) A tax lien attaches to the property on the date the deed restriction expires to secure payment of the additional tax and interest imposed by this section and any penalties incurred. The lien exists in favor of all taxing units for which the additional tax is imposed.

(c) The assessor shall prepare and deliver a statement for the additional taxes as soon as practicable after the deed restriction expires. The taxes become delinquent and incur penalties and interest as provided by law for ad valorem taxes imposed by the taxing unit if not paid before the next date on which the unit's taxes become delinquent that is more than 10 days after the date the statement is delivered.

(d) The sanctions provided by Subsection (a) of this section do not apply if the change of use occurs as a result of a sale for right-of-way or a condemnation.

### **23.97. Penalty for Violating Deed Restriction**

(a) If airport property appraised under this subchapter is used as other than public access airport property before the term of the deed restriction expires, a penalty is imposed on the property equal to the difference between the taxes imposed on the property on the basis of appraisal under this subchapter for the year in which the violation occurs and the amount that would have been imposed for that year had the property not been restricted to use as public access airport property.

(b) The chief appraiser shall make an entry in the appraisal records for the property against which the penalty is imposed indicating liability for the penalty and shall deliver a written notice of imposition of the penalty to the person who filed the application for appraisal under this subchapter. The notice shall include a brief explanation of the procedures for protesting the imposition of the penalty.

(c) The assessor for each taxing unit that imposed taxes on the property on the basis of appraisal under this subchapter shall add the amount of the penalty to the unit's tax bill for taxes on the

property against which the penalty is imposed. The county assessor-collector shall add the amount of the penalty to the county's tax bill for taxes on the property. The penalty shall be collected at the same time and in the same manner as the taxes on the property against which the penalty is imposed. The amount of the penalty constitutes a lien on the property against which the penalty is imposed and accrues penalty and interest in the same manner as a delinquent tax.

## **Subchapter H. Appraisal of Restricted-Use timer Land**

### **23.9801. Definitions**

In this subchapter:

(1) "Aesthetic management zone" means timber land on which timber harvesting is restricted for aesthetic or conservation purposes, including:

(A) maintaining standing timber adjacent to public rights-of-way, including highways and roads; and

(B) preserving an area in a forest, as defined by Section 152.003, Natural Resources Code, that is designated by the director of the Texas Forest Service as special or unique because of the area's natural beauty, topography, or historical significance.

(2) "Critical wildlife habitat zone" means timber land on which the timber harvesting is restricted so as to provide at least three of the following benefits for the protection of an animal or plant that is listed as endangered or threatened under the Endangered Species Act of 1973 (16 U.S.C. Section 1531 et seq.) and its subsequent amendments or as endangered under Section 68.002, Parks and Wildlife Code:

(A) habitat control;

(B) erosion control;

(C) predator control;

(D) providing supplemental supplies of water;

(E) providing supplemental supplies of food;

(F) providing shelters; and

(G) making of census counts to determine population.

(3) "Management plan" means a plan that uses forestry best management practices consistent with the agricultural and silvicultural nonpoint source pollution management program administered by the State Soil and Water Conservation Board under Section 201.026, Agriculture Code.

(4) "Regenerate" means to replant or manage natural regeneration.

(5) "Streamside management zone" means timber land on which timber harvesting is restricted in accordance with a management plan to:

(A) protect water quality; or

(B) preserve a waterway, including a lake, river, stream, or creek.

(6) "Qualified restricted-use timber land" means land that qualifies for appraisal as provided by this subchapter.

### **23.9802. Qualification for Appraisal as Restricted-Use Timber-Land**

(a) Land qualifies for appraisal as provided by this subchapter if the land is in an aesthetic management zone, critical wildlife habitat zone, or streamside management zone.

(b) Land qualifies for appraisal as provided by this subchapter if:

(1) timber was harvested from the land in a year in which the land was appraised under Subchapter E; and

(2) the land has been regenerated for timber production to the degree of intensity generally accepted in the area for commercial timber land and with intent to produce income.

(c) Land ceases to qualify for appraisal under Subsection (b) on the 10th anniversary of the date the timber was harvested under Subsection (b)(1). This subsection does not disqualify the land from qualifying for appraisal under this section in a tax year following that anniversary based on the circumstances existing in that subsequent tax year.

(a) Except as provided by Subsection (b), the appraised value of qualified restricted-use timber land is one-half of the appraised value of the land as determined under Section 23.73(a).

(b) The appraised value determined under Subsection (a) may not exceed the lesser of:

(1) the market value of the land as determined by other appraisal methods; or

(2) the appraised value of the land for the year preceding the first year of appraisal under this subchapter.

(c) The chief appraiser shall determine the market value of qualified restricted-use timber land and shall record both the market value and the appraised value in the appraisal records.

### **23.9804. Application**

(a) A person claiming that the person's land is eligible for appraisal as provided by this subchapter must file a valid application with the chief appraiser.

(b) To be valid, an application for appraisal under Section 23.9802(a) must:

(1) be on a form provided by the appraisal office and prescribed by the comptroller;

(2) provide evidence that the land qualifies for designation as an aesthetic management zone, critical wildlife habitat zone, or streamside management zone;

(3) specify the location of the proposed zone and the quantity of land, in acres, in the proposed zone; and

(4) contain other information necessary to determine the validity of the claim.

(c) To be valid, an application for appraisal under Section 23.9802(b) must:

(1) be on a form provided by the appraisal office and prescribed by the comptroller;

(2) provide evidence that the land on which the timber was harvested was appraised under Subchapter E in the year in which the timber was harvested;

(3) provide evidence that all of the land has been regenerated in compliance with Section 23.9802(b)(2); and

(4) contain other information necessary to determine the validity of the claim.

(d) The comptroller shall include on the form a notice of the penalties prescribed by Section 37.10, Penal Code, for making or filing an application containing a false statement. The comptroller, in prescribing the contents of the application form, shall require that the form permit a claimant who has previously been allowed appraisal under this subchapter to indicate that the previously reported information has not changed and to supply only the eligibility information not previously reported.

(e) The form must be filed before May 1. However, for good cause shown, the chief appraiser may extend the filing deadline for not more than 15 days.

(f) If a person fails to file a valid application on time, the land is ineligible for appraisal as provided by this subchapter for that year. Once an application is filed and appraisal under this subchapter is allowed, the land is eligible for appraisal under the applicable provision of this subchapter in subsequent years without a new application unless the ownership of the land changes, the standing timber is harvested, or the land's eligibility under this subchapter ends. However, if the chief appraiser has good cause to believe the land's eligibility under this subchapter has ended, the chief appraiser may require a person allowed appraisal under this subchapter in a previous year to file a new application to confirm that the land is currently eligible under this subchapter by delivering a written notice that a new application is required, accompanied by the application form, to the person who filed the application that was previously allowed.

(g) The appraisal office shall make a sufficient number of printed application forms readily available at no charge.

(h) Each year the chief appraiser for each appraisal district shall publicize, in a manner reasonably designed to notify all residents of the district, the requirements of this section and the availability of application forms.

(i) A person whose land is allowed appraisal under this subchapter shall notify the appraisal office in writing before May 1 after eligibility of the land under this subchapter ends. If a person fails to notify the appraisal office as required by this subsection, a penalty is imposed on the property equal to 10 percent of the difference between the taxes imposed on the property in each year it is erroneously allowed appraisal under this subchapter and the taxes that would otherwise have been imposed.

(j) The chief appraiser shall make an entry in the appraisal records for the property against which the penalty is imposed indicating liability for the penalty and shall deliver a written notice of imposition of the penalty to the person who owns the property. The notice shall include a brief explanation of the procedures for protesting the imposition of the penalty. The assessor for each taxing unit that imposed taxes on the property on the basis of appraisal under this subchapter shall add the amount of the penalty to the unit's tax bill for taxes on the property against which the penalty is imposed. The penalty shall be collected at the same time and in the same manner as the taxes on the property against which the penalty is imposed. The amount of the penalty constitutes a lien on the property against which the penalty is imposed and on delinquency accrues penalty and interest in the same manner as a delinquent tax

(k) If the chief appraiser discovers that appraisal under this subchapter has been erroneously allowed in any of the 10 preceding years because of failure of the person whose land was allowed appraisal under this subchapter to give notice that the land's eligibility had ended, the chief appraiser shall add the difference between the appraised value of the land under this subchapter and the market value of the land for any year in which the land was ineligible for appraisal under this subchapter to the appraisal records as provided by Section 25.21 for other property that escapes taxation.

### **23.9805. Action on Application**

(a) The chief appraiser shall determine separately each applicant's right to have the applicant's land appraised under this subchapter. After considering the application and all relevant information, the chief appraiser shall, based on the law and facts:

(1) approve the application and allow appraisal under this subchapter;

(2) disapprove the application and request additional information from the applicant in support of the claim; or

(3) deny the application.

(b) If the chief appraiser requests additional information from an applicant, the applicant must furnish it not later than the 30th day after the date of the request or the chief appraiser shall deny the application. However, for good cause shown, the chief appraiser may extend the deadline for furnishing the information by written order for a single period not to exceed 15 days.

(c) The chief appraiser shall determine the validity of each application for appraisal under this subchapter filed with the chief appraiser before the chief appraiser submits the appraisal records for review and determination of protests as provided by Chapter 41.

(d) If the chief appraiser denies an application, the chief appraiser shall deliver a written notice of the denial to the applicant not later than the fifth day after the date the chief appraiser makes the determination. The chief appraiser shall include with the notice a brief explanation of the procedures for protesting the denial.

### **23.9806. Application Denial Based on Zone Location**

(a) Before a chief appraiser may deny an application under Section 23.9805 on the ground that the land is not located in an aesthetic management zone, critical wildlife habitat zone, or streamside management zone, the chief appraiser must first request a determination letter from the director of the Texas Forest Service as to the type, location, and size of the zone, if any, in which the land is located.

(b) The chief appraiser shall notify the landowner and each taxing unit in which the land is located that a determination letter has been requested.

(c) The director's letter is conclusive as to the type, size, and location of the zone for purposes of appraisal of the land under this subchapter.

(d) If the land is located in a zone described in the determination letter, the chief appraiser shall approve the application and allow appraisal under this subchapter if the applicant is otherwise entitled to have the applicant's land appraised under this subchapter.

(e) The director of the Texas Forest Service by rule shall adopt procedures under this section. The procedures must allow the chief appraiser, the landowner, and a representative of each taxing unit in which the land is located to present information to the director before the director issues the determination letter.

(f) Chapters 41 and 42 do not apply to a determination under this section by the director of the Texas Forest Service of the type, size, and location of a zone.

### **23.9807. Change of use of Land**

(a) If the use of land that has been appraised as provided by this subchapter changes to a use that qualifies the land for appraisal under Subchapter E, an additional tax is imposed on the land equal to the sum of:

(1) the difference between:

(A) the taxes imposed on the land for each of the

five years preceding the year in which the change of use occurs that the land was appraised as provided by this subchapter; and

(B) the taxes that would have been imposed had the land been appraised under Subchapter E in each of those years; and

(2) interest at an annual rate of seven percent calculated from the dates on which the differences would have become due.

(b) If the use of land that has been appraised as provided by this subchapter changes to a use that does not qualify the land for appraisal under Subchapter E or under this subchapter, an additional tax is imposed on the land equal to the sum of:

(1) the difference between:

(A) the taxes imposed on the land for each of the five years preceding the year in which the change of use occurs that the land was appraised as provided by this subchapter; and

(B) the taxes that would have been imposed had the land been taxed on the basis of market value in each of those years; and

(2) interest at an annual rate of seven percent calculated from the dates on which the differences would have become due.

(c) A tax lien attaches to the land on the date the change of use occurs to secure payment of the additional tax and interest imposed by this section and any penalties incurred. The lien exists in favor of all taxing units for which the additional tax is imposed.

(d) The additional tax imposed by this section does not apply to a year for which the tax has already been imposed.

(e) If the change of use applies to only part of a parcel that has been appraised as provided by this subchapter, the additional tax applies only to that part of the parcel.

(f) A determination that a change in use of the land has occurred is made by the chief appraiser. The chief appraiser shall deliver a notice of the determination to the owner of the land as soon as possible after making the determination and shall include in the notice an explanation of the owner's right to protest the determination. If the owner does not file a timely protest or if the final determination of the protest is that the additional taxes are due, the assessor for each taxing unit shall prepare and deliver a bill for the additional taxes and interest as soon as practicable after the change of use occurs. The taxes and interest are due and become delinquent and incur penalties and interest as provided by law for ad valorem taxes imposed by the taxing unit if not paid before the next February 1 that is at least 20 days after the date the bill is delivered to the owner of the land.

(g) The harvesting of timber from the land before the expiration of the period provided by Section 23.9802(c) constitutes a change of use of the land for purposes of this section.

(h) The sanction provided by Subsection (a) or (b) does not apply if the change of use occurs as a result of a:

(1) sale for right-of-way;

(2) condemnation; or

(3) change in law.
